FIVE YEAR METRICS

Beta	Correlation	R-squared	Standard Deviation
0.50	0.72	51.7	8.6%

Beta represents the tendency of the fund's return to respond to market swings. <1 means the fund has less volatile returns than the index. **Correlation** measures how two instruments (fund and index) move in relation to each other: +1 is perfect positive correlation. **R-Squared** is a number 0 to 100 representing the percentage of a fund's movements explained by movements in its index. A high number indicates a more useful beta figure. **Standard Deviation** is a measurement of investment volatility (up and down) that illustrates how much dispersion there is from the mean. The lower the standard deviation the closer the data points are to the mean (average).

Fund Codes	NRP 900 (F) NRP 901 (A-FE) NRP 902 (A-LSC)

Except where indicated otherwise, F Series data as of January 31, 2019, net of fees, annualized. On June 30, 2016 the benchmark index of the Fund was changed from 70% BMO Small Cap Equity Only Weighted Total Return Index and 30% S&P Developed Small Cap Total Return Index to 100% BMO Small Cap Equity Only Weighted Total Return Index. The contents of this document are intended for information purposes only and should not be considered an advertisement or offer to sell or solicitation to buy any securities in any jurisdiction. Mutual fund shares or units of the NCM Mutual Funds are offered for sale by way of prospectus in all provinces of Canada. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the NCM Mutual Funds prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share or unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual fund securities are not guaranteed, their values change frequently and past performance may not be repeated. If we have included a rate of return or mathematical table to illustrate the potential effects of a compound rate of return, it is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Each series of the Fund has a different management fee, and accordingly the performance of each series will differ. Performance data for other series can be found at www.ncminvestments.com. NCM Asset Management Ltd. as manager and portfolio manager of the NCM Mutual Funds may engage one or more sub advisors to provide investment management services to certain Funds, including its affiliate, Cumberland Investment Counsel Inc. Please refer to the NCM Mutual Funds prospectus and annual information form for more information.
