INTERIM FINANCIAL STATEMENTS OF NCM CORE PORTFOLIOS LTD.

• NCM Core Canadian • NCM Core Global

TO THE SHAREHOLDERS OF NCM CORE PORTFOLIOS LTD.

These unaudited interim financial statements are as at March 31, 2024. The unaudited interim financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") and include statements of financial position as at March 31, 2024 and September 30, 2023, statements of comprehensive income, statements of changes in net assets attributable to shareholders, and statements of cash flows for the period ended March 31, 2024 and 2023; and notes to the interim financial statements, comprising a summary of significant accounting policies, schedule of investment portfolio and other explanatory information.

The accompanying interim financial statements have not been reviewed by the external auditors of the Fund. The external auditors will be auditing the annual financial statements of the Fund prepared in accordance with IFRS.

We would be pleased to respond to any inquiries regarding this Fund.

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

1. Reporting entity

On January 9, 2014, Norrep MG Fund Ltd. changed its name to Norrep Premium Portfolios Ltd. On February 17, 2016 Norrep Premium Portfolios Ltd. changed its name to Norrep Core Portfolios Ltd. On August 27, 2018, Norrep Core Portfolios Ltd. changed its name to NCM Core Portfolios Ltd. The Fund's principal place of business is Dome Tower, Suite 1850, 333-7th Avenue S.W. Calgary, Alberta, T2P 2Z1.

The Corporation is authorized to issue 100 Classes of special shares, each Class being issuable in series (collectively the "Special Shares") and an unlimited number of common shares. At March 31, 2024, there were 100 common shares issued as well as two Classes of Special Shares with NCM Core Canadian, and NCM Core Global all issued in five series. Each special share represents an equal undivided interest in the net assets of its Fund. CIBC Mellon Trust Company is the Custodian of the Funds, and NCM Asset Management Ltd. ("NCM") is the Manager and Portfolio Manager of the Funds.

2. Basis of preparation

(a) Statement of compliance:

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Funds' significant accounting policies under IFRS are presented in note 3. These policies have been applied consistently to all periods presented.

These interim financial statements have also been prepared in accordance with International Accounting Standards ("IAS") 34, Interim financial reporting.

The financial statements of the Funds were approved and were authorized for issue by the Manager's Board of Directors on May 28, 2024.

(b) Basis of measurement:

The financial statements have been prepared on the historical cost basis, except for investments at fair

value through profit or loss and derivative instruments which are measured at fair value.

(c) Functional and presentation currency:

The financial statements are presented in Canadian dollars, which is the Funds' functional currency, and all values are rounded to the nearest dollar except where otherwise indicated.

(d) Use of judgements and estimates:

These financial statements include estimates and assumptions made by management that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, and gains and losses during the reporting period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. Significant estimates include fair value of investments.

3. Significant accounting policies

The Funds have consistently applied the following accounting policies to all periods presented in these financial statements.

- (a) Financial assets and financial liabilities:
 - (i) Classification

The Funds follow IFRS 9 Financial Instruments. The standard requires assets to be initially recognized at fair value and subsequently measured at amortized cost, with changes in fair value recognized in profit and loss or fair value through other comprehensive income ("FVOCI") based on the entity's business model for managing financial assets or the contractual cash flow characteristics of the financial assets.

Assessment and decision on the business model approach used is an accounting judgement.

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

3. Significant accounting policies (continued)

- (a) Financial assets and financial liabilities (continued):
 - (i) Classification (continued)

Under IFRS 9, derivatives are classified as FVTPL.

The Funds classify financial assets and financial liabilities into the following categories.

Financial assets at fair value through profit or loss:

All investments, including derivatives

Financial assets at amortized cost:

Cash and cash equivalents and receivables

Financial liabilities at amortised cost:

All liabilities other than redeemable shares

The Funds designate all financial assets and liabilities at fair value through profit or loss on initial recognition because it manages securities on a fair value basis in accordance with its documented investment strategy. Internal reporting and performance measurement of these securities and the Fund as a whole is on a fair value basis. The Manager also receives management fees which are based on the overall fair value of the Fund.

(ii) Recognition and initial measurement

Financial assets and financial liabilities at fair value through profit or loss ("FVTPL") are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities at fair value through profit or loss are initially recognized at fair value, with transaction costs recognized in profit or loss. Financial assets or financial liabilities not at FVTPL are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue.

(iii) Derecognition

Financial assets are derecognized only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Funds derecognize financial liabilities when, and only when, the Funds' obligations are discharged, cancelled or they expire.

(iv) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non-performance risk.

There is no difference between pricing fair value and accounting fair value.

(v) Amortized cost measurement

The amortized cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at recognition, minus principal repayments (if applicable), plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount (if applicable), minus any reduction for impairment (if applicable).

(vi) Specific instruments

Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Funds in the management of short-term

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

3. Significant accounting policies (continued)

(vi) Specific instruments (continued)

Cash and cash equivalents (continued)

commitments, other than cash collateral provided in respect of derivatives and securities borrowing transactions.

Redeemable shares

The Funds classify financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Funds have multiple classes of redeemable shares that do not have identical features and therefore, do not qualify as equity under IAS 32, *Financial Instruments: Presentation*. The redeemable shares, which are classified as financial liabilities and measured at redemption amount, provide investors with the right to require redemption, subject to available liquidity, for cash at a share price based on the Fund's valuation policies at each redemption date. The shares represent the residual interest in the Fund.

The value at which mutual fund shares are issued or redeemed is determined by dividing the net assets of the Fund at fair value based on last traded price by the total number of mutual fund shares outstanding on the valuation date. Amounts received on the issuance of mutual fund shares and amounts paid on the redemption of mutual fund shares are added to, or deducted from net assets.

(b) Dividend income:

Dividend income is recognized in profit or loss on the date on which the right to receive payment is established. This is usually the ex-dividend date.

(c) Dividends to holders of redeemable shares:

Any dividends paid will be in proportion to the number of shares held by each shareholder.

Dividends per share to shareholders is calculated as the total amount of dividends attributable to a series divided by the number of shares of the series at the date of distribution.

(d) Net gain (loss) from financial instruments at fair value through profit or loss:

Net unrealized/realized gain (loss) from financial instruments at fair value through profit or loss is calculated using the average cost method.

Average cost does not include amortization of premiums or discounts on fixed income securities.

(e) Income tax:

The Corporation is qualified as a mutual fund corporation for the purposes of the Income Tax Act (Canada) and the Alberta Corporate Tax Act.

Interest and foreign dividends received, less applicable expenses, are taxed at Federal and Provincial corporate rates less applicable credits for any foreign taxes paid.

Taxable dividends received from taxable Canadian corporations are subject to taxes that are fully refundable upon payment of sufficient taxable dividends to shareholders.

The Corporation is also subject to tax at full corporate rates on 50% of capital gains realized, less allowable capital losses claimed. This tax is generally refundable to the extent that the Corporation distributes its capital gains to shareholders by way of a capital gains dividend, or through the redemption of its shares.

Temporary differences between the tax basis of assets and liabilities and their carrying amounts may be either taxable or deductible. Taxable temporary differences give rise to deferred income tax liabilities and deductible temporary differences give rise to deferred income tax assets. When the fair value of investments is greater than the related tax basis, a deferred income tax liability arises and the deferred

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

3. Significant accounting policies (continued)

(e) Income tax (continued):

tax liability is offset by refundable taxes generated by future payments of capital gains dividends.

When the fair value of investments is less than the related tax basis, a deferred income tax asset arises and due to the uncertainty of such deferred income tax assets ultimately being realized, a full valuation allowance is applied to offset the asset. Any unused capital and non-capital losses represent deferred tax assets to the Corporation for which a full valuation allowance has been established such that no net benefit has been recorded by the Corporation.

Income that would give rise to deferred income tax liabilities or assets are distributed out to shareholders.

Certain dividend and interest income received by the Fund is subject to withholding tax imposed in certain countries of origin. Income that is subject to such tax is recognized gross of the taxes and the corresponding withholding tax is recognized as a tax expense. The Funds incurred withholding tax expense accordingly;

	March 31, 2024	March 31, 2023
NCM Core Canadian	32	_
NCM Core Global	24,050	19,036

(f) Increase (decrease) in net assets attributable to holders of redeemable shares:

The net assets attributable to holders of redeemable shares per share is calculated by dividing the net assets attributable to holders of redeemable shares of a particular series of shares by the total number of shares of that particular series outstanding at the end of the period.

Increase (decrease) in net assets attributable to shareholders per share is calculated as increase (decrease) in net assets attributable to shareholders, divided by the weighted average shares outstanding during the period.

(g) Translation of foreign currency:

Foreign currency amounts are expressed in Canadian dollars as follows:

- fair value of investments and accrued receivables and payables and other assets and liabilities at the rate of exchange at the end of the period; and
- (ii) purchases and sales of investments and dividend and interest income at the rate of exchange prevailing on the respective dates of such transactions.

Foreign currency differences are recognized as a component of net gain/loss from financial instruments at fair value through profit or loss.

(h) Derivative financial instruments:

The Funds may use derivative financial instruments to reduce their exposure to fluctuations in foreign currency exchange rates. Derivative financial instruments are recorded at mark to market with changes in fair value recorded in the statement of comprehensive income.

Options are contracts entitling the holder to purchase or sell a specified item at a specified price, during a specified period or on a specified date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. Any gain or loss resulting from revaluation is included in change in unrealized gain (loss) on derivative instruments on the statements of comprehensive income.

The risks include the possibility there may be an illiquid options market or the inability of the counterparties to fulfill their obligations under the contract. Writing options involves, to varying degrees, elements of market risk in excess of the amount recognized in the statements of financial position.

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

3. Significant accounting policies (continued)

(i) Securities lending transactions:

The Funds are permitted to enter into securities lending transactions as set out in the Funds' Simplified Prospectus. These transactions involve the temporary exchange of securities for collateral with a commitment to redeliver the same securities on a future date. Securities lending transactions are administered by The Bank of New York Mellon (collectively the "Securities Lending Agent"). The value of cash or securities held as collateral must be at least 102% of the fair value of the securities loaned. sold or purchased. Income is earned from these transactions in the form of fees paid by the counterparty and, in certain circumstances, interest paid on cash or securities held as collateral. Income earned from these transactions is included in the Statements of Comprehensive Income as Securities lending income and recognized when earned.

4. Fair value measurement

(a) Investments:

The fair values of financial assets and financial liabilities that are traded on active markets are based on quoted market prices. For all other financial instruments, the Funds determine fair values using other valuation techniques.

For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

A three-tier hierarchy is used as a framework for disclosing fair value based on inputs used to value the Fund's investments. The hierarchy of inputs is summarized below:

 Inputs that are quoted prices (unadjusted) in active markets for identical instruments (Level 1);

- Valuation techniques for which the lowest level input that is significant to fair value measurement is directly or indirectly observable (Level 2);
- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable (Level 3).

Changes in valuation methods may result in transfers into or out of an investment's assigned level. The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change occurred.

(b) Fair value hierarchy – Financial instruments measured at fair value:

The tables below analyze investments measured at fair value at March 31, 2024 and September 30, 2023 by the level in the fair value hierarchy into which the fair value measurement is categorized. The amounts are based on the values recognized in the statement of financial position.

4. Fair value measurement (continued)

(b) Fair value hierarchy – Financial instruments measured at fair value (continued):

(in Canadian dollars)	Level 1	Level 2	Level 3	Total
NCM Core Global -	September 30,	2023		
Public securities				
Equities	34,300,058	_		34,300,058
Total Investments	34,300,058	_	_	34,300,058

There were no transfers between Level 1, Level 2 and Level 3 during the periods presented.

(c) Financial instruments not measured at fair value:

The carrying values of cash and cash equivalents, dividends and interest receivable, accrued expenses, and other receivables and payables approximate their fair values due to their short term nature.

5. Financial instruments and associated risks

The Funds' activities expose it to a variety of risks associated with financial instruments as follows: credit risk, liquidity risk and market risk (including currency risk, interest rate risk and price risk). The Funds' overall risk management program seeks to maximize the returns for the level of risk to which the Funds are exposed and seeks to minimize potential adverse effects on the Funds' financial performance. Market disruptions associated with acts of terrorism, war, natural disasters and epidemics can lead to increased market volatilities and be highly disruptive to economies, individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings and investor sentiment. Such disruptions can adversely affect the financial instrument risks associated with each of the Funds and its investments. All investments result in a risk of loss of capital.

Credit risk:

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds. The

carrying amount of cash and cash equivalents and receivables represents credit risk.

Credit risk arising on transactions for shares purchased and portfolio assets sold relates to transactions awaiting settlement, also known as settlement risk.

'Settlement risk' is the risk of loss due to the failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

For the majority of the transactions, the Funds mitigate this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Also, legal entitlement will not pass until all monies have been received for the shares purchased or the portfolio assets sold. If either party does not meet its obligation then the transaction will fail.

Substantially all of the assets of the Funds are held by CIBC Mellon Trust Company, the custodian. Bankruptcy or insolvency of the custodian may cause the Funds' rights with respect to securities held by the custodian to be delayed or limited. The Funds monitor risk by monitoring the credit quality, credit rating and financial position of the custodian the Funds use.

If the credit quality or the financial position deteriorates significantly then the Portfolio Manager will move the cash holdings to another financial institution.

The Portfolio Manager analyses credit concentration based on the counterparty, industry and geographical location of the financial assets that each Fund holds.

Other than outlined above there were no significant concentrations of credit risk to counterparties at March 31, 2024 and September 30, 2023.

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

5. Financial instruments and associated risks (continued)

Liquidity risk:

Liquidity risk is the risk that the Funds will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial assets.

The Funds are exposed to daily cash redemptions of redeemable shares. Investments in small, mid-capitalization and micro-capitalization companies may involve greater risks than in larger, more established companies since such companies may have more limited markets and financial resources and their securities may be more sensitive to market changes. As well, the liquidity of the securities may be limited.

Consequently, in order to fund redemptions, the Funds may have to liquidate shareholdings in the more liquid large and medium-sized companies.

To the extent that the liquidity is limited, the Funds' ability to realize profits and/or minimize losses may be limited, which could adversely affect the net asset value of the Funds. The Funds believe they maintain sufficient cash and cash equivalent positions to maintain liquidity.

The Funds' liquidity risk is managed on a daily basis by the Portfolio Manager. Minimum cash balances may be required to be maintained in each Fund at the discretion of the Portfolio Manager to allow for monies to cover redemptions. The Funds' redemption policy allows for redemptions at any time during any given month.

The Funds are subject to regulatory requirements whereby the Funds shall not purchase an illiquid asset if, immediately after the purchase, more than ten percent of the net assets of each Fund, taken at market value at the time of purchase, would consist of illiquid assets. Residual contractual maturities of financial liabilities are all due on demand.

Market risk:

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and price risk.

The Funds' strategies on the management of investment risk are driven by the Funds' investment objectives.

NCM Core Canadian is designed to achieve long-term capital appreciation by investing primarily in equity securities of large capitalization issuers. NCM Core Global will seek to achieve long-term capital appreciation by investing primarily in global equity securities.

No material change in the investment objectives, policies or restrictions of a Fund may be made without the approval of a majority of the votes cast at a meeting of the Fund duly called for that purpose.

The Funds' market risk is managed on a daily basis by the Portfolio Manager in accordance with the policies and procedures in place.

Details of the nature of the Funds' investment portfolio at March 31, 2024 are disclosed in the schedule of investment portfolio.

(a) Currency risk:

The Funds may invest in financial instruments and enter into transactions denominated in currencies other than the Canadian dollar. Consequently, the Funds are exposed to risks that the exchange rate of the Canadian dollar to other foreign currencies may fluctuate.

The Funds may use derivatives to hedge the foreign currency exposure. Such permitted derivatives may include exchange-traded options, futures contracts, and options on futures, over-the-counter options and forward contracts.

Japanese Yen	1.3%	1.4%
Swiss Franc	_	2.2%

Sensitivity Analysis:

At March 31, 2024 and September 30, 2023, had the Canadian dollar strengthened or weakened by 1% in relation to all currencies, with all other variables held constant, including the impact of outstanding derivative instruments, net assets attributable to the holders of redeemable shares and the change in net assets attributable to holders of redeemable shares would have increased or decreased by the amounts shown below. In practice, the actual trading results may differ from this sensitivity analysis and the difference could be material.

NCM Core Global	2024	2023
(in Canadian dollars)		
U.S. Dollar	276,107	228,982
Euro	46,038	47,435
British Pound	24,528	21,391
Danish Kroner	10,585	16,442
Japanese Yen	5,218	5,004
Swiss Franc	171	7,875
Total	362,647	327,129

(b) Interest rate risk:

Interest rate risk arises on interest-bearing financial instruments. A change in general interest rates is a main factor affecting the price of a fund that invests in fixed income securities. Fixed income securities, like bonds, pay interest based on interest rates when the bond is issued. The majority of the Funds' assets are non-interest-bearing. Interest-bearing financial assets mature or re-price in the short term, being no more than twelve months. There are no interest bearing financial liabilities as a result, the Funds are subject to limited exposure to the risk of fluctuation in the prevailing levels of market interest rates. High yield corporate bond prices are impacted by the credit metrics, liquidity and business fundamentals of the corporate entity with a minimal correlation to interest rates.

(c) Other price risk:

Other price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment or its issuer, or factors affecting all instruments traded in the market. All securities present a risk of loss of capital.

Price risk is managed by the Funds' Portfolio Manager through construction of diversified portfolios. The price of a security is affected by individual company developments and by general economic and financial conditions in those countries where the issuer of the security is located, does business or where the security is listed for trading. In addition, certain securities are not listed on any prescribed stock exchange and thus a liquid market for resale may not exist.

Market risk (continued):

(c) Other price risk (continued):

Sensitivity analysis:

The Portfolio Manager will monitor these factors daily and make decisions regarding the portfolio based on its knowledge of the market conditions and diversify the portfolio of investments accordingly. The maximum price risk resulting from financial instruments is equivalent to their fair value.

Sensitivity analysis:

Management's estimate of the impact of a 1% increase or decrease on the following indices at March 31, 2024 and September 30, 2023, is an increase or decrease in the net assets attributable to holders of redeemable shares of approximately:

	Total Return Index	Change in	
	(In Canadian dollars)	Net As	sets
	· ·	2024	2023
	S&P TSX Composite		
NCM Core Canadian	Total Return Index	104,745	108,406

6. Net assets attributable to holders of redeemable shares

The Corporation is authorized to issue an unlimited number of special shares of up to 100 classes with each class representing a separate fund with its own investment objective and investment portfolio (referred to collectively as the "special shares").

Each class can be divided into 26 series, each series being comprised of an unlimited number of shares. Currently, there are five series outstanding for both NCM Core Canadian and NCM Core Global, Series A, Series F, Series M, Series Z and Series O. NCM Core Global ETF Series was terminated on June 1, 2023. Each series ranks equally with respect to dividends and return of capital in the event of liquidation, dissolution or winding up based on their respective series' net asset values. Each series pays its own fees and expenses. Series A shares are sold through the front end sales charge option. Under the front end sales charge option, a commission ranging from 0% to 5% is paid by the investor to the dealer with a 2%

Notes to Interim Financial Statements (unaudited)

6. Net assets attributable to holders of redeemable shares (continued)

redemption fee being charged if the shares are redeemed in the first 30 days. Series F are sold to purchasers enrolled in a fee-for-service or wrap program with their dealer. A 2% redemption fee is charged if the Series F is redeemed within the first 30 days. Series Z are sold without commission provided the purchaser is enrolled in a fee-for-service or wrap program with the dealer. A 2% redemption fee is charged if the Series Z shares are redeemed in the first 30 days.

There are no sales charges or commissions payable in respect of purchases of Series O shares. Series O is only available for purchase by the NCM Funds and other funds and accounts managed or advised by the Manager and/or its affiliates.

Series M shares are not available for general public purchase.

ETF Series securities were only purchased and sold on the TSX or another exchange or marketplace, as listed. The ticker symbol for the ETF Series was NCG.

In addition, the Corporation is authorized to issue an unlimited number of common shares. The special shares have priority over the common shares with respect to the payment of dividends and the distribution of assets or return of capital in the event of liquidation or dissolution on winding up of the Corporation. 100 common shares were issued on incorporation for \$1.

The special shares may be redeemed daily at the net asset value per share of the respective series.

The analysis of movements in the number of redeemable shares was as follows:

7. Management fees, expenses and key contracts

(a) Manager and management fees:

NCM Core Canadian paid an annual management fee to the Manager of 1.75% for Series A, of the net asset value of the series. NCM Core Global paid an annual management fee to the Manager of 1.85% for Series A, of the net asset value of the series. The NCM Core Canadian paid an annual management fee of 0.75% for Series F, of the net asset value the series. The NCM Core Global paid an annual management fee of 0.85% for Series F and ETF Series, of the net asset value of the series. The management fee is calculated and paid monthly. No management fees were charged to Series Z; instead, the investors pay an annual flat management fee of \$1,000 per account, directly to the Manager. There are no management fees payable in respect of Series O shares. The NCM Funds and other funds and accounts managed or advised by the Manager and/or its affiliates that invest in Series O

Notes to Interim Financial Statements (unaudited)

Six months ended March 31, 2024 and 2023

7. Management fees, expenses and key contracts (continued)

(a) Manager and management fees (continued):

shares are charged a management fee for the provision of the services to them. Series M shares are not available for general public purchase. The Manager and its affiliates offer wealth management services including fee-based and managed accounts under the Cumberland Private Wealth brand, and the Series M shares are intended for such accounts. There is no management fee attached to series M.

Accrued expenses include management fees payable as follows:

	March 31,	September 30,
(in Canadian dollars)	2024	2023
NCM Core Canadian	9,937	10,447
NCM Core Global	19,229	19,432

(b) Expenses:

All fees and expenses applicable to the administration and operation of each series, including record keeping and communication costs, custodian fees, legal and filing fees, audit, applicable taxes and bank charges, are payable by the Funds. Brokerage costs are expensed as incurred and included in transaction costs.

Accrued expenses include administration services payable to NCM as follows:

	March 31,	September 30,
(in Canadian dollars)	2024	2023
NCM Core Canadian	1,001	1,100
NCM Core Global	3,236	3,432
NOW COIC Global	3,230	0,7

(c) Operating expense recoveries:

NCM has agreed to absorb certain expenses associated with some of the Funds. Such absorptions may be terminated at any time without notice.

Included in accounts receivable are the following related to these items:

	March 31, 2024	September 30, 2023
NCM Core Canadian	_	48,389
NCM Core Global		58,000

8. Brokerage commissions on securities transactions

The Funds paid brokerage commissions in connection with portfolio transactions during the periods ended March 31, 2024 and 2023 amounting to:

	March 31,	March 31,
	2024	2023
NCM Core Canadian	6,847	8,206
NCM Core Global	8,098	23,974

9. Securities lending transactions

NCM Core Canadian engages in securities lending. Collateral received on securities lending may be comprised of debt obligations of the Government of Canada and other countries, Canadian provincial or territorial governments, governments of states of the United States of America, and evidence of indebtedness of financial institutions whose short-term debt is rated A-1 or R-1 or equivalent by a recognized, widely followed North American credit rating agency, corporate debt or corporate commercial paper, convertible securities or cash that is not to be invested. The table below shows a reconciliation of the gross amount generated from securities lending transactions to the securities lending income earned by the Funds for the periods ended March 31, 2024 and 2023.

NCM Core Canadian	2024	2024	2023	2023
